

PRODUCT SPECIFICATION SHEET

Roll container **type FP ERGO 1460 K**
700x800x1665 mm, 2-sided / 3-sided / 4-sided

Technical data sheet:

base:	sandwich-type construction made of high-density polyethylene HDPE (fully recyclable), light blue (RAL 5012) closed and smooth container's base structure (so-called „hygienic”) for quick and easy cleaning base folds to one side thanks to a fitted precision spring mechanism high torsion resistance		
castor set:	rim and tread made of polyamide PA 2 fixed + 2 swivel castors (self-adjusting), roller bearings wheel diameter - 108 mm		
external dimensions:	length	width	height
	700 mm	800 mm	1665 mm
internal dimensions:	length	width	height
	665 mm	800 mm	1565 mm
walls:	side panels' main frame made of round steel tube, diameter 22 mm, infilled with 12x3 mm flat steel bars		
load capacity:	up to 500 kg		
surface finish:	zinc electro-plated Cr3 (blue)		
temperature resistance:	-40°C to +80°C		

Product description:

Thanks to their special features and exemplary ergonomics of use, our roller containers of the type **FP Ergo 1460 K** meet the increasing demands in many areas of application.

Thanks to the use of plastic folding shelves and a metal frame, our trolleys run extremely smoothly and quietly.

They can even be used in pedestrian areas or residential areas in the early morning hours, without causing any noise.

- stackable to save storage space
- low dead weight
- high load capacity
- easy to handle
- reduced noise emission compared to recommended target values
- reduced susceptibility to damage
- additional fittings
- environmentally friendly (recyclable)
- attractive price-performance ratio
- HACCP-compliant model (Hazard Analysis and Critical Control Point system)

All metal parts of the container are zinc electro-plated Cr3 (blue)

Other base colours (RAL) available on request.

Wide selection of additional accessories.

Company logo imprint option.
